

AHNJ On the Go

The information you need right at your fingertips

It's easy to get the information you need, no matter where you are. Download the free AHNJ On the Go app for your iPhone or Android for convenient access to your benefits information, claims, Find a Doctor tool, spending accounts, health history, member ID card, and more.

Here are some features of the app:

Find a Doctor tool

Locate hospitals, doctors, urgent care centers, pharmacies, and more in your AmeriHealth New Jersey network.

Provider information

Easily keep track of your primary care physician's name, phone number, office location, and other important information.

Doctor's Visit Assistant

Have more productive office visits with your doctors by preparing for the visit. With this feature, you can display or email an ID card to your provider, view open referrals, record notes, and capture documents or pictures.

Benefits information

Quickly see what's covered under your health plan and what cost-sharing is associated with each service.

My Health Assistant

Set health goals, and then build an action plan to help you stay healthy. Trackers help monitor progress and manage your activity plan on the go.

Medicine Cabinet

View and keep track of medications and identify them with pictures. Information is based on your claims data.

Medication reminders

Set daily or weekly reminders to take your prescription medications.

Food and drug interactions

Check current medications for potentially dangerous combinations with foods or other medications to avoid complications.

Available on the App Store and Google Play.
