Aflac Vision
Insurance - Plan 2

Your employees' vision is our focus

Set your company apart with standout protection

Vision insurance is valuable to employees who need vision correction, but it also helps pay for regular exams that may detect serious eye problems — including those caused by undiagnosed health conditions such as high blood pressure and diabetes.

What does that mean to you as an employer?

- By making vision insurance available to your employees, you're investing in their health.
- You're also investing in the health of your company, because when eye diseases and other health conditions are detected early, they can be treated before they lead to absenteeism and even turnover. (Although vision limitations and loss can be life-altering, many cases can be prevented and treated, although timing and access to care are essential.[1])
- Even simple vision problems can reduce productivity because employees may need more time to finish certain tasks. Eye exams can diagnose and correct these issues, boosting productivity and, ultimately, your bottom line.

Help protect your employees' financial security and overall health – and set yourself apart from companies that may be competing for the same talent – by adding Aflac's vision coverage to your company's benefits options.

Aflac Vision coverage information

We make it easy to find a provider. Members can visit www.aflac.com/VisionNetwork and click "Provider Search" or call Davis Vision directly at **1.800.999.5431** They'll have access to an expansive list of providers throughout the United States.

We also make it easy to schedule an appointment. When making an appointment, members should have their ID numbers, names and dates of birth handy. The provider will take care of the rest.
