Aflac Choice Hospital Insurance

Help your employees choose their benefits their way

Recently, 54% of Americans reported high levels of anxiety about health care costs exceeding what their insurance covers.¹ Even with health insurance, an unplanned visit to the hospital may leave your employees with unpaid medical bills and can be devastating to their financial and mental health. Anxiety, depression, sleeplessness, memory problems and more can all be linked to financial stress, leading to lost productivity, absenteeism and turnover, which can affect your bottom line.

Show your employees you care by offering benefits that can help protect them when faced with expenses associated with doctor visits, hospitalizations and mental health treatment that health insurance doesn't cover — all at little or no cost to you.

With Aflac Choice hospital insurance, your employees can tailor their hospital coverage to their unique needs and budgets. As health care costs continue to rise, it's easy to see why the Aflac Choice insurance policy makes sense for your employees — and your business.

Why Aflac Choice may be right for your employees

- **Cash benefits paid** directly to them to use as they see fit (unless they decide otherwise).
- **No deductibles**, lifetime maximum or price increases due to age.
- **Guaranteed-issue options available** — That means there is no medical questionnaire required.²

Help them plan for the unexpected costs of hospital stays

With a wide variety of options,* your employees select only the benefits that are right for them, so they can have confidence in their financial well-being and worry a little less.

**This information refers to benefit ranges for Policy Series B40000 and is for illustrative purposes only. The table below is not a comprehensive list of all benefits available through the policy.
